Mr. David Heidlauf  
C. C. Johnson Melhotra  
200 W. Adams Street  
Suite 1601  
Chicago, Illinois 60606

Dear Mr. Heidlauf:

Enclosed with this letter is some of the information you requested regarding dumping which has occurred at Miracle Park here in Toledo. The only fill agreement I am sending pertains to fly ash deposits being made by Toledo Edison at this location. Additional authorized dumping which has occurred at Miracle Park was clay fill from a building foundation excavation in Toledo's downtown. There was also some dumping of silt deposits from the Maumee River at the city's Water Reclamation facility. If I locate additional information, this will be sent to you.

The map which was included is a description of the land the city owns at the Miracle Park location and the various owners from whom this land was purchased. Also included are copies of aerial photographs taken of Miracle Park when the City purchased the land.

Please contact me at 472-3111, area code 419, if you have further questions.

Sincerely,

  
Warner W. Plahs
